B.Tech, Computer and Communication Engineering
Address : Potthan Thottam, Rangappanaickenpalayam, Namakkal

Education

ASE, Coimbatore B.Tech · Computer and Communication Engineering	2027 CGPA - 7.41/10
NATIONAL PUBLIC SCHOOL Class XII - CBSE · mbipc · VEEPANATHAM NAMAKKAL	2023 Percentage - 76.4%
Dr.M.S. Udayamurthy School of Excellence Class X - CBSE · mbipc · Namakkal	2020 Percentage - 75%

Experience

Emertxe IoT Intern · Internship Designed and implemented an IoT-based embedded system using microcontrollers and sensors, applying Embedded C programming and SDLC-based project development with hands-on hardware testing.	Sep 2025 - Nov 2025 Online
Vaishnav Technology Frontend Web Development · Frontend Web Developer · Internship Completed a Frontend Web Development internship focused on building responsive and user-friendly web interfaces. Worked with modern web technologies to design, develop, and optimize webpages, ensuring usability, performance, and cross-browser compatibility.	May 2025 - Jun 2025 Online

Projects

AI Book Analyzer Link Self-Initiated Project · PyPDF2,NLTK,Pandas,NumPy,Plotly,NetworkX • Developed an AI-powered web application that enables users to upload PDF books and generate concise summaries, FAQs, and context-aware question-answer responses using NLP. • Implemented PDF text extraction, preprocessing, and semantic search to improve the accuracy of AI-generated responses. • Integrated Google Gemini API with LangChain to build an interactive chatbot capable of answering questions based on uploaded documents. • Technologies Used: Python, Flask, LangChain, Google Gemini API, PyPDF2, FAISS, HTML, CSS, JavaScript, NLP, LLMs.	Jan 2025 - Feb 2025 Artificial Intelligence, NLP
Mental Health Support App Link Self-Initiated Project · BackendLanguage: Python, Web Framework: Flask, FrontendCore: HTML, CSS, JavaScript (Vanilla) • Developed an AI-assisted application to assess users' stress levels and provide personalized mental well-being guidance based on questionnaire responses. • Implemented backend services using Python and Flask to process user inputs and generate recommendations. • Designed a responsive web interface for user assessments and result visualization using HTML, CSS, and JavaScript. • Technologies Used: Python, Flask, HTML, CSS, JavaScript, NLP, Machine Learning.	Aug 2025 - Sep 2025 Artificial Intelligence
Supply Chain Management System Academic Project · DBMS,SQL,System Design • Developed a database-driven application to manage inventory, suppliers, customer orders, and logistics efficiently. • Designed a relational database schema and implemented SQL queries for inventory tracking, order processing, and supplier management. • Built backend functionalities to ensure accurate stock updates and maintain data consistency across modules. • Technologies Used: MySQL, SQL, DBMS, HTML, CSS, JavaScript, System Design.	Dec 2024 - Apr 2025 Database Management System

Portfolio

Skills

Areas of Interest: AI & Machine Learning, Data Science & Analytics, Natural Language Processing

Programming Languages: Python, SQL, HTML, CSS, C/C++

Languages and Frameworks: React, Numpy , PyPDF2,NLTK,Pandas,Plotly,NetworkX

Tools and Technologies: Visual Studio Code, GitHub , Jupyter Notebook, MySQL

Languages

English [Professional Working Proficiency], Tamil [Native Proficiency]
